DETAILED ACTION

APPLICANTS' ARGUMENTS

Applicants' amendments and arguments in the response filed 24 May 2004 have been fully considered and are deemed to be persuasive.

REASONS FOR ALLOWANCE

The following is an Examiner's statement of reasons for allowance:

The filing of the amendments to correct embedded hyperlinks and the cancellation of claims 14-40, drawn to a non-elected invention, have overcome all grounds of rejection in the office action, mailed 24 March 2004, and no other grounds for rejection are present. The closest prior art relevant to the instantly claimed invention was discussed in the previous office action (Linusson et al. Statistical Molecular Design of Building Blocks for Combinatorial Chemistry. 08 March 2000, Volume 43, pages 1320-1328). Therefore, claims 1-13 are deemed allowable. No pending United States applications have been identified with claims directed to the same invention as claimed herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
